

## **Lumy AppStore Description**

Lumy is a simple and beautiful app for photographers and everyone who wants to track the sun/moon.

Want to take gorgeous photographs around the golden hour or blue hour? Want to plan your fitness or yoga session around sunrise or sunset? Want to check when the first or last light is available to schedule your outdoor activity? Want to know when the moon rises or sets? Want to know when the next full moon will be?

Lumy is the ultimate app for you.

Golden Hour (also known as Magic Hour) is the time around sunrise or sunset when the light is often soft, warm, and perfect for capturing lovely visuals. With lumy, you can anticipate the best lighting condition and get ready ahead of time to take advantage of it. Lumy also shows you the weather information for the next seven days to plan things out.

Lumy notifications are highly customizable. You can schedule it for particular days or make them repeat automatically to your need. Titles like a photo shoot, morning walk, etc., can also be added to the notification.

Lumy now supports Siri Shortcuts. So ask Siri questions like - 'Is moon above the horizon?', 'When is next full moon day?', 'When is Golden Hour?'.

Lumy is designed to be highly customizable for your use case, whether you are a minimalist or an advanced user.

Enjoy Lumy on iPhone, iPad, Apple Watch, Apple TV, HomePod with a single purchase on the AppStore.
